

# ONYX & ONYX Pro

As intuitive, as attractive

*Crafted for Every Taste*

*Crafted For Every Taste*

## Creative design for demanding baristas

Born from a heritage of excellence in espresso machines and a history of pursuing innovative solutions that push coffee technology further, we are very proud to introduce ONYX -the professional-grade premium espresso machine that defines attainable luxury and lets you express your own personal style.

Combining insight from experienced baristas with proven brewing technology and energy-saving software we have created a machine that is as smart and reliable as it is elegant and beautiful.

## Design concept

We realize that every serving space is unique, so we have designed it to be easily customized through easily changeable graphic slots, custom inserts in the exterior panels, or by custom-designed side and back LEDs.

# Main features ONYX Pro

Features based on ONYX Pro 2GR with auto steamer as option.

**ONYX Pro 3GR**

**ONYX Pro 2GR**

## Main features ONYX Pro

### Main Touch screen

Take control of brewing, programming and cleaning functions with a 2.5" LCD touch screen display.

### Group back flush button

Use the dedicated group flush button to perform a quick flush, thus improving hygienics and durability.

### Customizable panels

Side and back panels can be customized to suit any need or environment.

### LED lighting

LED panels on 3 sides allow for virtually unlimited custom branding opportunities. Pro models only.

### Pulse/auto steam controls

Pull the lever up to perform just a flush; pull it down to start steaming or frothing.

### Automatic cleaning

Auto cleaning means the group head and shower always stay clean and ready for the next brew.

### Cool touch steam wands

Straight-flow wands ensure minimal steam restriction and anti-suction valves plus keep everything hygienic and easy to clean.

### Auto Steamer (Option)

Automatic steam wand for steaming or frothing the milk.

# Main features ONYX

PID electronic control

Volumetric dosing (5 button keypad)

Soft-touch portafilters

Cool touch steam wands

Customizable side panels

Soft preinfusion chamber

Group auto cleaning cycle

**ONYX 3GR**

**ONYX 2GR**

**ONYX Mini 2GR**

**TA Option**  
Available for all versions

## Main features ONYX

**Volumetric dosing (5 button keypad)**  
Independent group keypads and digital displays: 3 shot settings/doses, hot water, and group flushing.

**PID Control**  
PID digital temperature control across all groups guarantees accurate heating for every brew (Except Mini 2gr versions).

**Customizable panels**  
Side panels can be customized to suit any need or environment.

**Double Pre infusion**  
Combining Crema's pre infusion chamber group heads together with an electronic pre infusion system.

**Automatic cleaning**  
Auto cleaning means the group head and shower always stay clean and ready for the next brew.
